## Summary

After my School I decided to do Diploma in Computer Engineering from Shikshan Maharshi Dada Saheb Rawal Government Polytechnic, Dhule. After completing Diploma, I was searching for coding classes, I was lucky to find Masai School a short while after that. Currently I am pursuing a Full Stack Web Development Course at Masai School. Duration of this course is 6 months.

I have technical skills like HTML, CSS, JavaScript and ES6. I have proficiency in soft skills effective problem solving along with leadership, analytical abilities and group collaboration. I have hands on experience on two collaborative projects at Masai School which were Credo Skincare clone and Myntra clone.

Besides coding, I have few interest in traveling and meeting new people.
